Nirajan Bohara

QA Engineer

(977) 9865614302 | boharanirajan430@gmail.com | LinkedIn | GitHub | Website | Kathmandu, Nepal

Summary

Detail-oriented QA Engineer with 2.5+ years of hands-on experience in manual, mobile app, API, automation (Cypress/Selenium), and performance testing. Skilled in creating/executing detailed test cases, defect tracking with Jira, ensuring cross-platform compatibility, and collaborating in Agile teams to deliver high-quality, reliable software. Strong problem-solver with excellent communication and a passion for improving testing processes and user experience.

Experience

Cashkr
Feb 2024 - Present

Associate QA Engineer   *Mumbai, Maharashtra, India (Remote)*

- Performed comprehensive manual and functional testing on web applications, mobile apps (customer & vendor), and admin panels, focusing on functionality, usability, performance, and security across multiple devices and browsers.
- Designed and executed 150+ detailed test cases covering positive, negative, and edge cases for key modules like user authentication, payments, inventory management, and admin workflows.
- Conducted API testing using Postman and Apidog to validate backend integrations, data accuracy, response times, and reliability.
- Tracked, reported, and retested defects in Jira; collaborated closely with developers for efficient resolution, reducing production issues through proactive feedback.
- Performed regression, cross-browser, and responsive testing; contributed to daily stand-ups and test plan improvements in Agile sprints.
- Engaged in root cause analysis and process enhancements to improve overall product quality and release cycles

Cashkr
Aug 2023 - Jan 2024

QA Engineer (Intern)   *Mumbai, Maharashtra, India (Remote)*

- Analyzed software requirements and specifications to understand testing scope for mobile and web platforms.
- Executed manual testing on core features, identifying bugs in UI, functionality, and integrations.
- Conducted API testing with Postman for endpoint validation and basic performance checks.
- Designed test cases and scenarios (positive/negative/edge); reported and tracked issues using test management tools.
- Collaborated with cross-functional teams to verify bug fixes and improve communication on quality standards.
- Gained foundational experience in regression and UI testing to support seamless software delivery.

Major Skills

Testing:	Manual Testing, Functional Testing, Mobile App Testing, API Testing, Automation Testing (Cypress, Selenium), Regression Testing, UI/Usability Testing, Performance Testing
Tools:	Jira, Postman, Apidog, JMeter, Git/GitHub
Methodologies:	Agile, SDLC/STLC
Test Documentation:	Test Cases, Bug Reports, Test Scenarios, Bug Tracking
Languages & Tech:	HTML, CSS, Dart, Flutter, JavaScript, Python Basics, MySQL, SEO Optimization
Soft Skills:	Analytical Thinking, Problem-Solving, Team Collaboration, Quick Learner, Communication

Projects

Cashkr Customer App & Vendor App
Link1, *Link2*

QA

- Conducted end-to-end QA testing for features including user registration, device listing, payments, and inventory management.
- Ensured high-quality releases by validating functionality, performance, and cross-platform compatibility.

Cashkr Website, Admin Panel & Store Website
Link1, *Link*

QA

- Performed thorough testing for bugs, usability, security flows, and integrations; used Postman for API validation and ensured consistent behavior across environments.
- Conducted end-to-end automation testing with cypress for API's and Website.

Education

New Summit College
Nov 2021 - Dec 2025

Bachelors in computer application
Kathmandu, Nepal

Language

English, Nepali, Hindi
